Education

SCLPS Samaj School- Nairobi, Kenya-Highschool

June 2023

University of Manitoba- Computer Sci & Physics

Sept 2023-Current

Projects

Game development

participated in a hackathon held at the University of Manitoba where we had to work in a team to create a game that was based on a theme. The theme was “under pressure”, I was part of a team which had no prior experience working with game development and we created a game “cooked” which won a people choice award.

UMSATs- Software Team

UMSATs is an organization that is actively engaged in advancing space-related projects and initiatives. Here I have gained the knowledge of what it takes from launch to maintaining satellites and have a chance to contribute to the software team which deals with developing software tools using languages such as Python
